

## Notice to Residents of the Village of Nunda

The Village of Nunda is currently upgrading its water meter system to better serve the needs of our residents. The new system will be more efficient and accurate and will facilitate locating waterline leaks, which are wasteful and can be costly to property owners.

The upgrade will be taking place gradually throughout the coming years and will require the village to have access to all water meters.

The Village Board reminds residents that to operate our water system in an efficient and effective manner, it is necessary that water bills be paid in a timely manner. Although it is not our desire to do so, when water bills are unpaid, we have to charge interest on money due. In addition we may have to shut off the water supply, and charge to reinstate water service.

Please make every effort to provide access to your meters when our crew is upgrading the system at your property and to pay your water bill in a timely manner.

Thank-you,

The Nunda Village Board
